

BONUS INCENTIVES FOR SMALL BUSINESSES

BUY FROM A DESIGNATED LOCAL BUSINESS AND RECEIVE A BIGGER INCENTIVE

Replacing outdated or failing lights with LEDs is a simple way to reduce energy costs for your business. For a limited time, Efficiency Smart will reward you with an increased incentive for purchasing qualifying LED bulbs or fixtures from a designated local supplier or contractor. Standard incentives still apply for all other qualifying purchases.

Step 1: Contact Efficiency Smart for pre-approval on your LED project and for a list of designated local suppliers and contractors

Step 2: Purchase qualifying products and complete your project

Step 3: Receive an increased incentive for purchasing from a designated local business

Need advice on the most cost-effective upgrades for your business first? Schedule a free consultation with an Efficiency Smart energy consultant to discuss your unique needs.

Contact your local account manager at **877-889-3777** or info@efficiencysmart.org to get started

One of the energy efficiency initiatives brought to you in partnership between your local municipal electric provider and Efficiency Smart
